Group can show you how.

MICROWATT

MICROWATT

LIFECYCLE SAFETY FIELD SERVICES

Protect your facility AND personnel without compromise.

We are the **true fire and gas detection experts** and have built an unequalled reputation across Canada for supporting all the safety products we supply — let us put our expertise to work for you. Our team of certified engineers are available to provide 24/7/365 support and our on-site technical team is ready to bring the right capabilities, tools, and resources directly to your site.

- FIRE AND GAS PROCESS HAZARD ANALYSIS
- LOPA, SIL2 VERIFICATION, PHA STUDIES
- F&G ENGINEERING DESIGN CONSULTATION
- F&G COST REDUCTION STRATEGIES
- FIRE & GAS 3D COVERAGE MAPPING
- START-UP & COMMISSIONING SERVICES
- CERTIFIED FIRE & GAS SAFETY TRAINING
- PREVENTATIVE MAINTENANCE SERVICES

VALUE-ADDED SERVICES:

- Review installation drawings at engineering phase
- Audit installed equipment both physically and electrically to verify that it is in proper working condition and free of faults
- Identify/document recommendations for site safety improvements specific to your site requirements
- Apply relevant upgrades to hardware and software
- Recommend optimal detection coverage for your facility
- Verify placement of sensors and detectors conforms to industry best practices
- Monitor equipment lifecycle requirements
- Certified fire and gas safety training services

END-USER BENEFITS REALIZED:

- Ensure you have the highest level of technical competency available by having our Certified Field Technicians engaged in all levels of your facility's fire and gas safety requirements
- Receive documented recommendations specific to your site
- Minimize or eliminate your need to manage spare parts, testing equipment and calibration gases
- Decrease your equipment down time, adding a higher degree of safety and productivity
- Increase your site efficiency by leveraging our technical product knowledge and industry experience
