

Vibratone® Horns

Models 350 and 450

DESIGNED FOR ROUTINE SIGNALING

- Effective range of 200 feet (61m)
- Reproduces coded or sustained tones
- Model 350 – 12, 24, 120 and 240VAC and produces 100dB @ 10' (110dB @ 1m)
- Model 450 – 12, 24, 125 and 250VDC and produces 99dB @ 10' (109dB @ 1m)
- UL Listed, cUL Listed, CSA Certified, FM Approved
- NEMA 4 with panel mount gasket; NEMA 4X, IP55 with weatherproof backbox (WB)

The Models 350 (AC current) and 450 (DC current) Vibratone® horns produce sound by the electro-mechanical vibration of a diaphragm. The horn mechanism with diaphragm is attached to the grille. Indoor or outdoor use depends on the back box used. Both models may be fitted with a single projector (Model PR) or a double projector (Model PR2).

Model 350 is available in 12, 24, 120 or 240VAC for 50/60Hz. Its sound output level is 100dB nominal at ten feet (110dB @ 1 meter); the 12VAC model is rated for 94dB at ten feet (104dB @ 1 meter).

Model 450 is available in 12, 24, 125 and 250VDC – the 250VDC model is excellent for coding and alarm usage. The 24VDC, 125VDC and 250VDC versions are rated at 99dB at ten feet (109dB @ 1m); the 12VDC version is rated at 93dB at 10' (103dB @ 1m).

These Federal Signal horns accommodate surface, flush or semi-flush mounting on walls, panels, in cabinets, or on 4-inch square outlet boxes (not included with signal). **For NEMA Type 4 applications**, an optional gasket kit is available for surface or flush panel mounting. The 350 and 450 models are made of die-cast zinc with gray enamel finish. Both outer housings measure 4" x 4" x 2 1/2" and resist vandalism without reducing sound output. Model 350 has a stainless steel diaphragm; Model 450 has an aluminum alloy diaphragm and heavy-duty contacts. Both are UL and cUL Listed (Underwriters Laboratories), CSA (Canadian Standards Association) Certified and FM Approved. When used with the weatherproof back box (Model WB), these horns also meet NEMA 4X requirements.

Capable of reproducing coded blasts or sustained tones, Federal Signal's Vibratone horns are excellent for general alarm, start/dismissal, coded paging and process control signaling in areas where their sound output exceeds ambient noise levels. Compact size and a variety of installation options make them ideal for institutional use.
